Building a Trusted Ecosystem

Introduction

Every successful ecosystem begins with one vision.

At Estuscia Group, our vision is not just to build another company. Our ambition is to build India's most trusted financial ecosystem where transparency, innovation, technology, and investor confidence come together under one brand.

We believe wealth creation should never depend on uncertainty or misinformation. It should be built on trust, education, professional management, and long-term value creation.

Company Overview

Who We Are

Estuscia Group LLP is the holding company that oversees and manages a diversified ecosystem of businesses across finance, investment management, technology, media, e-commerce, and fashion.

Instead of operating individual companies independently, Estuscia follows an ecosystem model where every business strengthens the others.

For Example

- Financial services generate trust.
- Technology improves customer experience.
- Media builds brand awareness.
- E-commerce creates commercial growth.
- Fashion expands into consumer markets.

Together, these businesses create a sustainable and scalable ecosystem.

Our Vision

Building a Scam-Free Financial Community

Today, millions of people lose money due to:

- Investment scams
- Fake promises
- Lack of financial knowledge
- Poor investment planning
- No professional guidance

01

02

Estuscia's vision is to change this reality by creating a trusted ecosystem where individuals and businesses can access transparent financial services, investment opportunities, legal guidance, tax planning, and financial education under one platform.

03

Our goal is not only to build wealth but also to build confidence in financial decision-making.

Our Mission

Bringing the Vision into Reality

Our mission is to make professional financial services accessible to everyone.

We aim to

- Improve financial awareness
- Promote responsible investing
- Support startups and existing businesses
- Deliver transparent investment management
- Integrate technology into financial services
- Build long-term investor relationships
- Expand globally while maintaining trust and compliance

Brand Name Story – The Origin of Estuscia

From a Personal Loss to a Purpose-Driven Vision

Every great brand has a story. Estuscia was not created in a boardroom it was born from one of the most difficult moments of my life.

I was preparing to move to **Estonia** on a work visa. After months of planning and saving, my visa process was almost complete. Just before that **dream** became reality, I became the **victim** of a **financial scam**. The **money** I had worked so hard to save was **stolen**, and with it came uncertainty, disappointment, and countless unanswered questions about **my future**.

As I **struggled** to recover, I discovered that I was not alone. My family, friends, and many people from my hometown had also experienced **financial scams**. Some had lost their life savings, while others faced severe **emotional distress** because of the **financial burden**. Seeing how deeply these **scams** affected ordinary people changed the way I looked at the **financial world**.

For nearly **two months**, I stayed isolated, reflecting on what had happened. During that time, I made a **decision** that would shape the **future** of **my life**. Instead of allowing that experience to define me, I chose to **build** something that could **help prevent** others from going through the **same pain**.

That decision became the foundation of a larger vision:

To build a scam-free financial community through awareness, transparency, and trust.

The Meaning Behind the Name "Estuscia"

The name Estuscia carries the story behind this mission

- **EST** comes from the first three letters of **Estonia**, the country that inspired the beginning of this journey.
- The letter **"U"** represents **You** the people, families, entrepreneurs, and investors this mission is built to serve and protect.
- **Scia** is inspired by the Latin root associated with **knowledge, awareness, and understanding**, reflecting the belief that informed decisions are the strongest protection against financial fraud.

By bringing these elements together, the name **Estuscia** was created.

More Than a Company

Estuscia is not simply a business or a brand.

It represents the transformation of **personal hardship** into a meaningful **purpose**. It stands for **financial awareness**, responsible decision-making, **transparency**, and the belief that **trust** should be the **foundation** of every **financial** relationship.

Every service, every product, and every company within the **Estuscia ecosystem** is built around one central objective

Building a Scam-Free Financial Community for Future Generations.

Initial Valuation

Initial Company Valuation

₹1 Crore

This valuation represents the starting stage of Estuscia Group as we establish our operations, build strategic partnerships, launch our ecosystem companies, and create long-term enterprise value.

Our objective is to increase the company's valuation through sustainable growth, diversified revenue streams, and successful execution of our business roadmap.

The Estuscia Ecosystem

Instead of relying on a single business, Estuscia is building an interconnected ecosystem.

Each company serves a different purpose while supporting the overall vision.
